WINTER RELIEF-2021

WINTER STRUGGLES OF POOR IN INDIA

Each individual finds it difficult to outlive the winter due to the cold. An estimated 1.8 million individuals are homeless in India, with 52% based in urban districts. A further 73 million families lack access to decent housing. The enduring of these individuals is much more intense. Endless people lose their lives as they don't have warm clothes or shelters to protect themselves. The cases are high in northern states as the temperature in those regions drops intensely. In the last week of December 2020, the normal temperature in Jammu & Kashmir dropped to -2°C . The maximum temperature recorded within the northern regions was 11°C .

SAHAYATA TRUST'S WINTER RELIEF

Sahayata Trust conducts a winter relief program every year, wherein blankets, gents sweaters, ladies sweaters, kids sweaters (boys and girls), woolen cap, ladies shawl are distributed to the poor to help them survive the cold weather. In January 2021, the team distributed the winter relief packages among 1100 destitute in northern regions to help the poor survive the harsh weather.
